OUR CITY Gdańsk

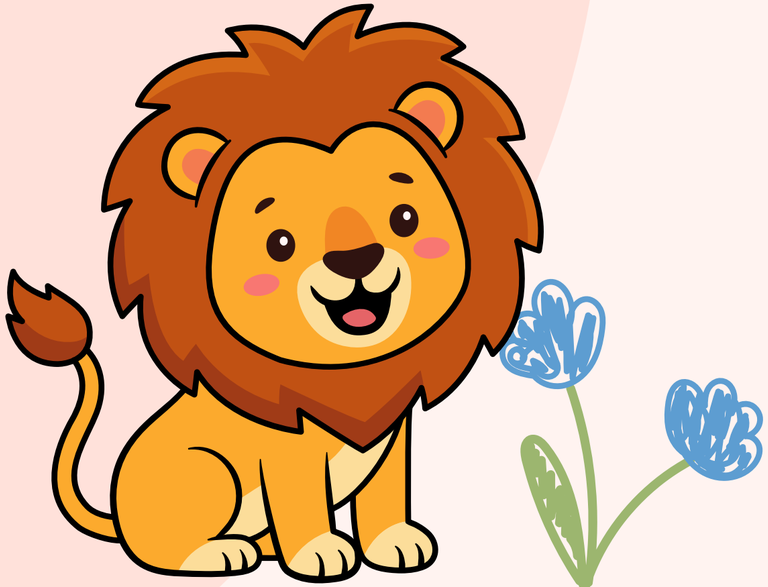

Our classrooms

are colorful, spacious and rich in teaching aids so teachers can use many of working mathods

Each classrom has a cloakroom and bathroom, where children are taught to follow hygiene rules

Hall

is safe and adapted for people with disabilities

GYM

It’s used for sport classes (PE), rythmic and dance classes as well as for theathre and artistic performances

Speech therapy office

The speech therapist works every day of th week

Psychological and pedagogical therapy office

for work with children with special educational needs

Kitchen

This is where healthy and delicious meals are made

Playground

Equipped with modern recreational equipment for children

Our lovely garden

Here nature and ecological classes are held. We also conduct nature observations. We have bird feeders and waterers

We have many projects that supports the comprehensive development of children

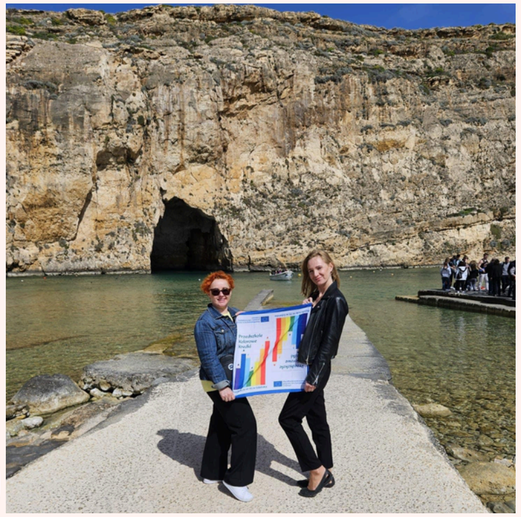

Erasmus +

We took part in several mobilities – jobshadowing and courses

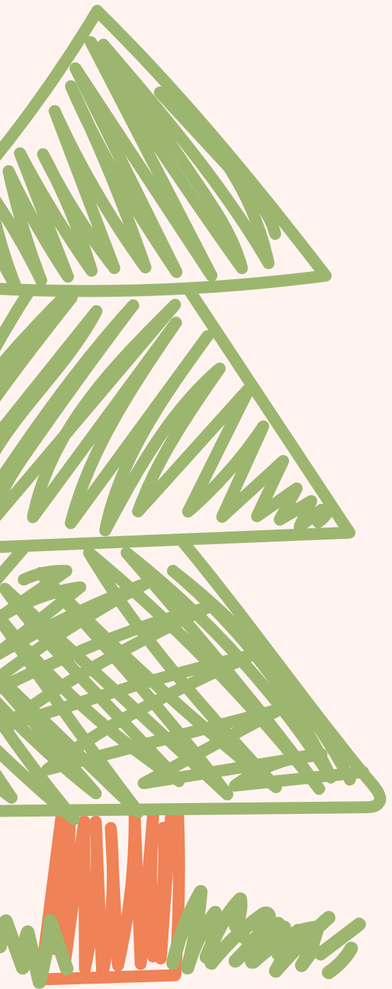

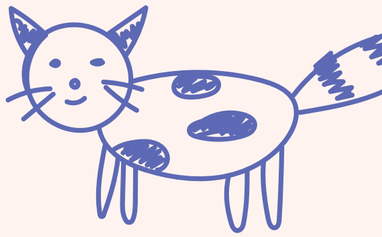

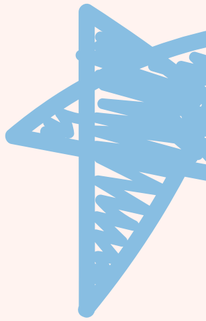

The Polish Education System

Kindergarten (ages 3–6) – Children learn through playing and simple activities.

Primary school (ages 7–15) – It lasts 8 years and is compulsory.

Secondary school (ages 15–19/20) – Students can choose:

- High school – 4 years
- Technical school – 5 years
- Vocational school – 3 years.

Matura exam – Students take this exam at the end of high school or technical school to apply to university.

University – Students can get a bachelor's or master's degree.

Public schools in Poland are free. Private schools are paid. It starts in September and ends in June. Students have two months of summer holidays (July and August). Each lesson lasts 45 minutes. The school year is divided into two semesters.
